

Getting from the Airport to the City

The easiest way to get from Auckland Airport into Auckland CBD would be through the Skybus service, which departs from outside the departure gate and goes straight into Auckland CBD. The bus service runs at all times of the day, and departs between every 10 minutes in rush hours, and every 30 minutes for late night departures. The journey takes approximately 40 – 60 minutes depending on traffic.

The fare is \$16 one-way, and \$28 return from the Airport.
